

SPORTident Air+ Timing System

(information provided by Y2Y Orienteering Development and Training Centre)

1. SPORTident Air+ is a contactless timing system. The effective range between the control station and the SIAC card is about 30 cm (roughly the size of an orienteering flag). Upon successful "punching", the SIAC card will feedback with flashing optical signal and "beep" sound. If runners cannot find the above signal, they have to return to the control point and do the punching again.
2. If the SIAC card is running low in battery, the contactless punching function will be disabled. If the SIAC card does not feedback with flashing optical signal and "beep" sound even within 30cm distance with the control station, please treat the card as a normal SI card and punch it into the SI station at a control point. Runners cannot defense using failure of punching system as a reason.

SI Punching Station

最大有效距離: 30 厘米
Maximum effective range: 30cm

如果打卡成功 · SIAC 指卡會發出聲響及閃燈確認
SIAC card feedbacks with "beep" sound and flashing optical signal upon successful punching

如果打卡不成功, 請將指卡當成普通 SI 卡使用 (即將指卡直接接觸打卡器)

If the SIAC card fails, please treat the card as a normal SI card and punch it into the SI station at a control point

3. Contactless finish line is used at Finish for the race. The timing stops when runners pass through the finish line and the SIAC card will feedback with "beep" sound and flashing optical signal as confirmation. If runners found that no feedback was given by the SIAC card when they run pass the finish line, they can choose to punch on the "Finish" unit. Yet, the later time will be taken as the Finishing time.

4. For runners wearing a GPS watch, do **NOT** wear a **GPS watch and the SI card** at the **same** arm as the active antenna of some GPS-watches can significantly reduce the SIAC's sensitivity. This may affect punching effectiveness and timing accuracy.

5. Runners' result will be determined based on the punching and timing record of your SIAC card. If runners found that the SIAC card fail to punch or record at any control point, they should use the physical punch attached to the orienteering flag to make a physical punch on their map and inform race official at Result station for verification. If runners cannot prove their punching record at certain control point with either the SIAC card or the physical punch, their record at that control point is deemed invalid.
